School Acoustics

Energy Services

Air Tightness Testing
Display Energy Certificates
Domestic Energy Performance Certificates
Non-Domestic Energy Performance Certificates
SAP Calculations

Environmental Noise Control

Planning

Environmental noise is an increasingly important aspect of planning for both industrial and residential developments.

Acoustic Associates can assess planning applications and industrial noise impact assessments, using suitable standards for example PPG24 or BS4142 therefore offering the following services:

- + Environmental noise audits
- + Noise Mapping
- + Noise mitigation
- + Traffic noise surveys

Entertainment and Leisure

The noise from entertainment and leisure activities needs to be controlled to ensure that it does not cause environmental problems. We have experience in noise monitoring and specifying controls where necessary.
